USB Port Lock Kit

Simple and effective tool for blocking a USB port!

Prevent users from connecting pen drives, MP3 players and other USB mass storage devices to their computers to copy data or introduce viruses etc.

Plug the keylock into a USB port and release the latch - the lock remains in place; plug the key back into the lock to remove.

5 colour coded versions available: pink, green, blue, orange and white.

Each key only works with the same colour.

Supplied with 4 locks and 1 key.

Additional locks can be supplied in quantities of ten.

USB Wireless PC Lock

The automatic, low cost solution for securing your PC!

Prevent mouse and keyboard access when you are away from your PC.

Consists of a wireless receiver which plugs into a USB port and a transmitter which is carried by the user.

Access to the PC is 'locked' when the receiver and transmitter are out of range.

Locking / unlocking range: 2m (approximately).

Compatible with Windows 98SE/ME/2000/XP
