

**Fold-away platform  
for educational interactive whiteboards.  
Allows both teachers and pupils to use interactive  
whiteboards at their correct optimum heights.**

Enables pupils to reach all parts of the interactive whiteboard.

The Step-Up Platform folds away back against the wall under the over-hanging whiteboard when not in use, and the front legs fold completely out of the way.

As the Platform is lowered the legs automatically drop into a vertical position, where they are held at all times.

All linkages and hinges are manufactured to a patented design to avoid trapped fingers.

When the platform is in its lowered position, the legs are held in the vertical position and locked in place.

The rear legs are attached to the floor with eight bolts to provide a safe and stable stage.

The Step-Up is designed to enable Pupils to interact with the whiteboard and be seen by all the class.

Platform is Light Oak veneered.

Metal work is powder coated Light Grey.

All floor fixings are included if self-installation is required.

Size 1200 mm wide x 550 mm deep x 320 mm high

***Forget stools and boxes  
The Step-Up Platform lets pupils access  
the interactive whiteboard  
in a safe and controlled manner,  
without effecting the teacher's ability to use  
the whiteboard in a position to suit themselves.***
