

COMPONENTS

- 1 x 9mm cable, length 2m
- 2 x UniLock
- 1 x Looper
- 1 x 40mm padlock
- 2 x Keys

This universal anti-theft security set uses the existing screw holes in appliances. No adhesive needed, just a screwdriver. As easy as that!

UniKit is not only suitable for all flat screen monitors with a visible VESA connection. Other appliances, like desktop computers, can also be secured with UniKit quickly and easily.

UniKit is available with 2 or more screw cylinders (the so-called UniLocks). For a quick and easy installation a complete set of screws is included in the delivery.

The UniLock Pro provides the strongest fixing onto either Monitor and or CPU, whilst giving the maximum flexibility of movement.

Very easy to install.

Makes use of existing screw holes and features unique twist-proof design.

A single UniLock Pro Cable Kit will secure Computer CPU, Flat Screen Monitor, Mouse and Keyboard to the worksurface, linking all components together whilst allowing each piece of the workstation to move to suit individual needs.

COMPONENTS

Unilock Pro Fittings

Steel sleeve which cable is threaded through and plastic cover. Hole through sleeve allows fixing onto monitor or CPU using existing Screw holes from equipment.

A selection of screws are supplied if existing screws are not suitable. Once cable is installed the screws are not accessible.

Cable

2 metre x 5 mm PVC coated black high tensile steel cable.

Anodised silver steel ends one piece construction, pressure crimped onto the steel rope.

Metal Cable Trap

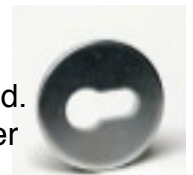

Can be used to secure mouse and keyboard.

Lay mouse and keyboard cable through U shaped cable trap, when security cable is threaded through the two holes it effectively traps the cables and secures mouse and keyboard.

Keyhole Washer

Fits onto end of cable into groove on stainless steel end. When padlock is secured through large hole the washer cannot be removed.

Padlock

40 mm can be keyed alike, keyed different or master keyed.
