

Supplied with 4 Locks and 1 Key
Additional locks can be supplied
in quantities of ten

USB Port Locks **Simple and effective tool** **for blocking a USB port!**

Prevent users from connecting pen drives, MP3 players and other USB mass storage devices to their computers to copy data or introduce viruses etc.

Plug the keylock into a USB port and release the latch - the lock remains in place; plug the key back into the lock to remove.

5 colour coded versions available:
pink, green, blue, orange and white.

Each key only works with the same colour.

MEDIA DRIVE LOCKS

Universal Drives Locks

Diskey MAX is suitable for all 3.5" drives.

ABS plastic is used for the body of the lock and hardened steel for the locking pins.

Keyed alike or master key systems are available.

Diskey II is suitable for all 3.5" drives.

This very solid disc lock is made from aluminium instead of plastic.

Keyed alike or master key systems are available.

CD Drive Locks

The CD Drive Lock is glued to the edge of the drive with a special liquid. This lock allows CD to be secured in the drive therefore securing not only the drive when empty, but valuable programme CD's when in use.
