

**Designed for projectors ceiling mounted on Unicol type poles**

*Encasements are custom built to fit different models of projector and to ensure the best security protection is achieved.*

The Projector and Pole Box Locking Kit is designed to protect and secure projectors which are already ceiling mounted using Unicol type ceiling pole mounts.

The kit offers protection to the projector itself and to the part of the pole mount which is removable. It replaces the swivel mounting brackets and puts all fixings behind a locked door.

The pole box is a locking box with a vertical welded tube; this tube extends from within the box to 100 mm above the box. It slides over the existing pole, and they are secured together with a 8 mm bolt and nut, which pass through both the inner pole and outer tube inside the pole encasement box. With the door locked removing the box from the pole is impossible.

Externally incorporated into the tube are two welded nutserts which allow two stabilising 5 mm bolts to be used. The bolts tighten the units and stop shake and vibration movement.

The projector encasement is secured within the pole encasement with two 8 mm bolts and nuts, which are again situated behind the locked pole encasement door.

Tilt movement is built into these fixings allowing tilt movement externally without having to use a key. However once the units are set into position there is usually very little need for day-to-day adjustment.

**Technical Specifications**

**Pole Encasement Box**

*Made from 2 mm sheet steel,  
Secures to Unicol Pole inside Pole Encasement Box with a 8 mm bolt and nut through both Unicol type pole and tube which is welded to box.  
Two stabilising bolts built into tube to stop shake and shudder when fixed to Unicol pole.*

**Lock**

*Seven lever gun cabinet lock.*

**Projector Encasement**

*Made from 2 mm sheet steel.*

**Locking Bar**

*Made from 4 mm sheet steel.*

**Lock**

*Anti Drill Radial Pin Lock into solid steel Lock Block which is welded to projector encasement can be keyed alike or different or mastered.*

**Colour and Finish**

*Powder coated to colour of your choice.*
